Here is a Miracle Grow In-Door Winter Garden as grown in a sub-basement showing different types of containers used

A Miracle Grow In-Door Winter Garden growing in ordinary Flower Pots. Barbara Ann pouring Nutrient Solution into pots instead of water

YOU CAN HAVE SOILLESS INDOOR GARDENS IN YOUR HOME

Our new formula of Double-Kick Miracle Grow chemicals contain the elements for plant growth. When used with Peat Pellets & Mica Pellets you can grow anywhere up to a dozen pots of Flowers, Foliage Plants, Novelty plants, etc. at a cost to you of only one dollar, plus 35c for postage and packing charge.

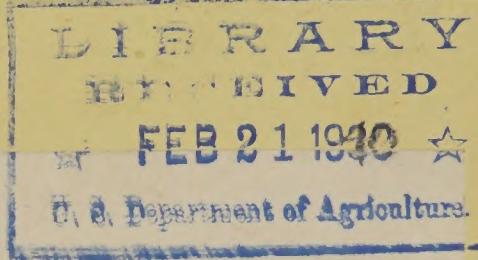

You have doubtless read articles in Magazines and Horticultural papers concerning this new method of Soilless Gardening. One concern near Chicago has over 3 acres of Greenhouses all used for Nutrient Solution Culture.

We send simplified cultural directions with each shipment and every member of your family will enjoy watching the gardens grow and all will be amazed at the rapid growth, and quickness of coming into flower, made possible by use of the combined Double-Kick Miracle Grow, Peat Pellets and Mica Pellet mineral top dressing.

1 Pkg. Double-Kick Miracle Grow Chemicals to mix with a gallon of water, and then reduce with more water as used, making 10 gallons Nutrient Solution.

2 Qts. Peat Pellets. A high grade of Peat especially milled for Soilless Gardening. Used to anchor the plants and to hold a supply of Nutrient Solution in which the roots make a very rapid growth.

1 Pt. Mica Pellets. A new golden colored mineral for putting on top Peat Pellets around the plants, cuttings, bulbs, etc. and for growing seeds, etc.

10 Easter Flowering Bulbs, including, gally-colored Tulips, Crocus, Daffodil, Philippinense Lily, Gladiolus, etc.

2 Tropical Cuttings, including the strikingly handsome Sanseveria.

5 Rooted Growing Plants including, House Fern, Baby Evergreen, Rose, etc.

6 Special Flowering Shrub Cuttings with blossom bud already formed ready to flower within a short time in your In-Door Garden.

2 Colorado Blue Spruce Evergreen Cuttings.

This drawing shows how sand or cinders and ordinary fine peat are used in making a soil-less garden in regular flower pot. We now use Peat Pellets in place of sand or cinders and Mica Pellets on top instead of ordinary fine Peat as shown in the drawing, and find it a great improvement

PERSONAL TO OUR RADIO CUSTOMERS

Many of you have written telling of wonderful growth your trees, shrubs, seeds and bulbs have made and state that one certain tree, shrub, or plant from your Radio Order is worth more than the dollar as paid for the original order.

I hope that you too, have been at least reasonably successful with your planting. However should anything have occurred so that you now feel that you have not had a full dollar value from your Radio order, just put an X across this page and return it to me and I will honor it for a credit of whatever amount you think is fair, up to 50 cents, which would be our standing one half of your loss, if for any reason you may have had a total failure. You can apply this credit the same as that much cash on any of our Radio Offers or plants listed on this folder, and deduct accordingly from your remittance.

I think the Miracle Grow is wonderful. It has saved some of my flowers that were dying.

M. H., Peoria, Ill.—Oct. 1939

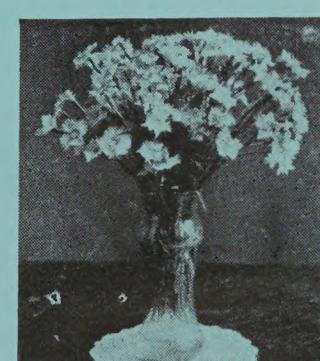

I have used Miracle Grow during the summer on my window boxes. Now I would use it for my potted plants. I am very greatly pleased with results. Mrs. N. N., Princeton, Minn.—Oct. 1939
